

# Absentee Voting

As a registered voter in Indiana, you are eligible to vote absentee-in-person at your county election board office beginning 28 days before Election Day.

Registered voters may also vote absentee-by-mail by meeting certain criteria. To view the requirements for absentee-by-mail voting, please contact your county clerk's office or visiting [www.in.gov/elections](http://www.in.gov/elections).

If you are eligible for absentee-by-mail voting, you must fill out an absentee voting application and send it to your county election board. After the application is processed and approved by the county election board, they will mail you an absentee ballot.

To vote absentee-by-traveling board, you must be disabled, confined due to illness or injury or caring for a confined person at a private residence. The ballot will be delivered to you before election day by a bipartisan absentee voter board who will be able to assist you with your ballot.
